Other Business:

Technical was pleased to learn athlete participation in the 2023 SC 8&U Finale had risen to nearly 300 swimmers.

Senior Chair Mike Chasson suggested the 2024 SC Senior Open Championship use a hybrid format of LC preliminary swims and SC finals swims to provide the athletes a chance to prep their LC races for the 2024 Spring Sectional which will be swum in LC meters given the Olympic Trials qualifying period. The Committee determined the General Chair would need time to clarify the correct process for both exploring and ratifying official changes of this matter.
